Living together

FAMILY ACADEMY

Living together

Families perform tasks that benefit the whole society. It is important to strengthen them by creating a positive environment for families in society and by taking effective steps.

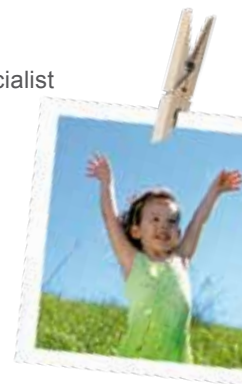

The SPES Family Academy was founded in 2001 as a non-party competence centre for family related work. It is our aim to strengthen families and to support those who create family friendly settings.

Offers for municipalities, towns, parishes and family organizations

How a municipality or region develops depends very much on the people who live there. Therefore we need to focus on the needs of children, families and elderly citizens and their life together.

- We coach and moderate regional networks, closed-door meetings, participation projects and perform the audit 'familyfriendlymunicipality'.

- We provide support for family committees and for the introduction or further development of local family friendly projects.
- We organize specialist conferences, local family days, workshops and seminars and draw up publications and working material.

Offers on family friendly action inside companies

Family friendly companies have more satisfied and motivated staff, and these employees identify themselves stronger with the company. Family-oriented staff policy creates competitive advantages and cost savings. We offer coaching for your company and assist you in working out family friendly action tailored to the individual need of your company.

Time Bank 55+

Time Bank 55+ is a non-profit association which actively promotes mutual help among neighbours. We assist you with creating a Time Bank 55+ association in your municipality.

Family Academy

- The competence centre for family work
- The intellectual workshop for innovative ideas
- The venue for family issues

We are looking forward to informing you personally on our offers:
